

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Wealtheon World Equity (the "Sub-Fund") is a sub-fund of Protea Fund (the "Fund") Class C (the "Class") - ISIN: LU1554377157

The Fund has appointed FundPartner Solutions (Europe) S.A. as management company.

Objectives and investment policy

The investment objective of the Protea Fund - Wealtheon World Equity is to achieve long-term capital growth by investing in global stock markets, while targeting companies that the investment manager considers to have higher-than-average growth potential and/or an attractive valuation. The portfolio construction is based on a top-down approach with a stock selection combined with a geographic and sector allocation.

The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

The Sub-Fund will mainly invest directly in global equities and other equity-related securities (such as ordinary or preferred shares, certificates, American depositary receipts, global depositary receipts, notes, etc.), or indirectly through eligible collective investment schemes (CIS), whose main objective is to invest in the above-mentioned asset classes within the limits stated in the prospectus.

The choice of investments will not be confined to a particular geographic region (including emerging countries), economic sector or currency. However, depending on market conditions, investments may be concentrated on one or a limited number of countries and/or a single economic sector and/or a single currency.

Alternatively, the Sub-Fund may also invest in other types of eligible assets, such as corporate and sovereign bonds, structured products, real estate investment trusts, money market instruments, cash and cash equivalents or eligible CIS investing in asset classes other than those mentioned above.

For hedging and investment purposes, the Sub-Fund may use any type of financial derivative instruments traded on a regulated market and/or over the counter (OTC), provided they are contracted with leading financial institutions specialised in this type of transaction. The Sub-Fund may invest, for example, in warrants, futures, options, swaps and forwards

where the underlying assets could include currencies (including non-delivery forwards), interest rates, securities, a basket of securities, indices or CIS.

Dealing Frequency

The net asset value for this Class is calculated on each Business Day, on the basis of the pricing of the preceding business day ("the Valuation Day"). For any subscription or redemption request received by the Fund, prior to 2 p.m. Luxembourg time, one business day before the Valuation Day, the net asset value calculated based on the pricing of the Valuation Day will be applicable.

Distribution Policy

The Class is cumulative. No dividend will normally be distributed.

Currency

The currency of the Class is EUR.

Minimum investment and/or holding requirement

An amount between EUR 2'000'000 and EUR 10'000'000 for the initial subscription as well as for the holding is a requirement for this Class.

This Class is reserved to investors that are under a discretionary management mandate with the investment manager.

Risk and reward profile

Risk Disclaimer

- This current risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category, which corresponds to Number 1, cannot be regarded as being risk-free.
- The Sub-Fund does not provide any capital guarantee or asset protection measures.

Why is this Sub-Fund in this category?

The portfolio of this Sub-Fund consists essentially of equities or equity related securities issued worldwide. Therefore its risk/reward profile corresponds to the high level on the SRRI scale.

Are there any other particular Risks?

Risks that could affect fund performance and are not necessarily fully reflected in the risk and reward rating include:

- **Liquidity risks:** The Sub-Fund may invest part of its assets in less liquid securities. Those are securities that cannot easily be sold or exchanged for cash without a substantial loss in value in certain market conditions. Those securities also cannot be sold quickly because of a lack of ready and willing investors or speculators to purchase the asset.
- **Counterparty risks:** The Sub-Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Sub-Fund.
- **Credit risks:** The Sub-Fund may invest a portion of its assets in debt securities. The issuers of these debt securities may become insolvent, which will mean that the securities will lose all or some of their value.

- **Risks from the use of derivatives:** The Sub-Fund may use financial derivatives instruments which will result in the Sub-Fund being leveraged and may result in material fluctuations in the value of the Sub-Fund. Leverage on certain types of transactions including derivatives may impair the Sub-Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Sub-Fund not to achieve its intended objective.

Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Sub-Fund being exposed to a greater loss than the initial investment.

- **Operational risks:** The Sub-Fund may fall victim to fraud or criminal acts. It may suffer losses as a result of misunderstandings or mistakes by employees of the Management Company or by external third parties or may be damaged by external events, such as natural disasters.

Charges

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.07%
-----------------	-------

Charges taken from the fund under certain specific conditions
